Job Opening: Occupational Therapist at Developmental FX

Developmental FX, located in Denver, CO, is looking for a talented pediatric occupational therapist to join our multi-disciplinary team for a full-time position. We specialize in working with children, adolescents, and adults with neurodiversity including differences in sensory integration. We are a non-profit organization dedicated to elevating care as usual with a mission to prepare children for a bright future of engaged belonging by equipping them, their families, therapists, and teachers via innovative programs in Colorado and around the world. Our practice model identifies the strengths and needs for each child and family and crafts individualized treatment approaches to meet them exactly where and collaborate to work on established goals. Through care coordination, we ensure this individualized approach, *Therapy that fits*, meets the identified needs. We utilize an interdisciplinary client-led and family-centered approach. Our treatment approach is relationship-based and neurodevelopmentally informed. The client population served includes neurodivergent groups, autism, ADHD, sensory integrative needs, anxiety, learning differences, motor coordination difficulties, and other developmental, learning, mental health, and behavioral differences. We also have a high degree of specialization to address genetic and rare conditions.

The ideal candidate must love to learn and want to be on the cutting edge of research and practice in sensory integration. Extensive mentorship and supervision are provided. This is a full-time position.

Duties include:

- participating in Multi-Disciplinary Evaluations,
- providing individual and group therapy services using our *Therapy that fits* treatment approach,
- documenting progress in daily notes and treatment plans,
- parent education and coaching,
- completing direct physician and teacher communication,
- other duties as appropriate.

Qualifications:

- Bachelor's/Master's Degree/Doctorate in Occupational Therapy from an accredited university
- Current Colorado OT state license required (DORA)
- Current NBCOT credentials for OTR
- Multidisciplinary experience preferred
- Experience with sensory integration and relationship based treatment approaches desired

SKILLS:

- Strong organizational skills
- Bilingual English/Spanish preferred
- Self-motivated
- Must be great at time management, able to be flexible and adapt to changing schedules
- Strong communication and customer service skills

COMPENSATION AND BENEFITS:

- Compensation commensurate with experience
- Flexible Schedule, Monday through Friday
- Extensive mentorship and supervision

TO APPLY: Please submit your resume and letter of interest to info@developmentalfx.org

Developmental FX is an Equal Opportunity Employer.
